

Wednesday 26 February

Time	PhD student	Topic	Opponents
8:45-9:00	Soft arrival		
9:00-10:00	Benedicte Ravn (online)	Exploration of matching product services systems aspiration with uncaptured value across product and production data flow	Torben Tambo Johan Clausen
10:00-11:00	Ishita Sharma		Mirko Presser Torben Tambo
11:00-12:00	Louis Junker-Jensen	The part-time penalty	Amjad Morten
12:00-13:00	LUNCH		
13:00-14:00	Mads Kjærgaard Nielsen	Investigating approaches for first time-right implementation of production line equipment.	Maja, Martin
14:00-15:00	Veronika Kentosova	Incentives for Collaboration, Pressures for Competition: Exploring How Prominent Scholars Navigate Academic Tensions Through Their Identities	Maja Kadenic, Anne Gammelgaard Ballantyne
15:00-15:15	Coffee break		
15:15-16:15	Research talk	A perilous path? Exploring sense-breaking mechanisms and individual consequences during digital transformation	Dr. Felix Lorenz

Thursday 27 February

Time	PhD student	Topic	Opponents
8:45-9:00	Soft arrival		
9:00-10:00	Jonas Sohn	The impact of an optimized HVAC system to enhance energy use efficiency of indoor vertical farm systems	Francesco Konstantinos
10:00-11:00	Anders Jakobsen (online)	Sustainable Customization in Product Configuration	Ismail Golgeci, John Bang Mathiasen
11:00-12:00	Pedro G. Hernandez (online)	Investigation of feedback parameters in IVR for training	Martin Olsen Georgios Fotis
12:00-13:00	LUNCH		
13:00-14:00	Trine Bjørn Olsen	Techno-economic performance assessment and development of optimization framework for the Crestwing WEC design	George F. Michail
14:00-15:00	Kristjan Maalt	Investigating the Myth of “More Data Equals Better Precision” in Online Advertising	René Goduscheit Madalina Pop
15:00-16:00	Mads Scott-Fordsmand Christensen	Investigating Data-Driven Interventions for Sustainability and CO2 Emissions Reduction: Sustainable Glove Use in Healthcare	René Goduscheit George Xydis
