

Autumn fun in HIP*

You think no one knows... You think it's your little secret... But your eyes betray you. You are SO into being locked up in a small room with some of your colleagues – preferably someone you don't know too well!

HIP wants to help you fulfil this dream ☺ We have made it possible for you on 1 November 2018 to be locked in a small room together with 4 of your colleagues... Risking never to escape!! (Unless, of course, you are able to cooperate and solve puzzles.)

We will be divided into small groups each consisting of 5 persons and hopefully, there will be so many of us participating, that we will have to be locked up in the rooms in two rounds. The groups, who are waiting, can have a nice chat over a cup of coffee and a piece of cake.

When, hopefully, all have escaped the small rooms and experienced excellent cooperation between colleagues (including those you rarely encounter in your everyday work) we go back to BTECH for a nice meal together.

Best regards

The HIP board
